1. CALL TO ORDER, ROLL CALL AND FLAG SALUTE

Chairperson Eby called the meeting to order at 1:30 p.m. and led the flag salute. Committee Members Winn and Eby were both present. Also present were General Manager Don Spagnolo, District Engineer Peter Sevcik, District Superintendent Tina Grietens, and Timothy McLarney from True North, Brian Robinson from Terrain and Bonnie Moss from Tramutola.

2. PRESENTATION BY TRUE NORTH REGARDING THE WORK PLAN AND PUBLIC OUTREACH FOR THE WATERLINE INTERTIE PROJECT

General Manager Don Spagnolo began the presentation with a brief description of the Waterline Intertie Project then introduced Timothy McLarney of True North to present the outreach work plan. Mr. McLarney described the assessment process and the proposed scope of work. Phase I is the initial research and survey including a discussion on how the District will communicate the issues to the community in a simple and factual way. Only people who own property will be able to vote on the assessment. The vote will be weighted by the fee they will be asked to pay. Phase II involves communication and outreach including public information and ballot measure preparation. The process is data driven and relies on facts surrounding the proposed project. The plan measure package step addresses the revenue and what will be voted on. Phase III involves preparing and tracking mail-out surveys including information sheets similar to the actual ballot package.

Public Comment:

John Snyder indicated that there might be some confusion about sweeping large land owners into the process. Those properties that should be voting may be inaccurate and may include properties not in Golden State Water Company's area.
